

Handbook on Notification Requirements

Under the Agreement on Agriculture

This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights or obligations under the WTO. Some real examples of notifications are referred to in the Handbook. These are referenced only for illustrative purposes without any judgement on the quality or content of the notifications.

Why are detailed notification requirements and formats used in the context of the Agreement on Agriculture?

Why does the Committee on Agriculture need them?

- ▶ This stems from the Committee's overseeing functions, as laid out in Article 18 of the Agreement on Agriculture and the terms of reference contained in the Decision by the General Council on 31 January 1995.

Article 18 of the Agreement on Agriculture Review of the Implementation of Commitments

1. Progress in the implementation of commitments negotiated under the Uruguay Round reform programme shall be reviewed by the Committee on Agriculture.

2. The review process shall be undertaken on the basis of notifications submitted by Members in relation to such matters and at such intervals as shall be determined, as well as on the basis of such documentation as the Secretariat may be requested to prepare in order to facilitate the review process.

3. In addition to the notifications to be submitted under paragraph 2, any new domestic support measure, or modification of an existing measure, for which exemption from reduction is claimed shall be notified promptly. This notification shall contain details of the new or modified measure and its conformity with the agreed criteria as set out either in Article 6 or in Annex 2.

4. In the review process Members shall give due consideration to the influence of excessive rates of inflation on the ability of any Member to abide by its domestic support commitments.

5. Members agree to consult annually in the Committee on Agriculture with respect to their participation in the normal growth of world trade in agricultural products within the framework of the commitments on export subsidies under this Agreement.

6. The review process shall provide an opportunity for Members to raise any matter relevant to the implementation of commitments under the reform programme as set out in this Agreement.

7. Any Member may bring to the attention of the Committee on Agriculture any measure, which it considers ought to have been notified by another Member.

Terms of Reference of the Committee on Agriculture - WT/L/43

"The Committee shall oversee the implementation of the Agreement on Agriculture. The Committee shall afford members the opportunity of consulting on any matter relating to the implementation of the provisions of the Agreement."

In carrying out its monitoring functions, the Committee therefore reviews Members' implementation of the results of the Uruguay Round. The scheduled and rule-based commitments are reviewed on the basis of Members' notifications. To strengthen the effectiveness of the Review Process undertaken by the Committee on Agriculture, Members recognize the need to improve the timeliness and completeness of notifications in accordance with the adopted procedures and formats.

This Handbook has been prepared by the Secretariat in response to such needs. It is hoped that the Handbook also becomes a useful working tool to assist Members in preparing notifications in the area of agriculture.

The submission procedure is contained in **WT/INF/124**.

All notifications are to be submitted to the *Central Registry of Notifications (CRN)*.

Notifications may be submitted to the CRN Administrator on paper, by fax or electronically. Once they have been registered in the CRN database, they are forwarded to the relevant operational divisions within the Secretariat for action.

In the case of agriculture, they are sent to the Agriculture and Commodities Division (AGCD) for preparation, follow-up action with the concerned delegation as may be required, and final circulation as official, unrestricted WTO documents, in English, French and Spanish to all WTO Members.

Members' compliance with their notification obligations in the field of agriculture is reviewed regularly in the Committee on Agriculture as well as in the Council for Trade in Goods in a higher level monitoring and surveillance context. In addition, the CRN reminds Members about their unfulfilled notification requirements on a semi-annual basis. The CRN also informs delegations annually of the regular notification obligations to which they will be expected to respond in the course of the following year.

These processes are briefly described below.

Committee on Agriculture (CoA)

The status of Members' compliance with notification obligations is considered by the CoA at each of its meetings under a standing agenda item. The Secretariat prepares a document¹ showing Members' status of compliance with their regular notification obligations so as to facilitate this exercise. This document is readily accessible to the public from the WTO web site.

Council for Trade in Goods (CTG)

Pursuant to the recommendation of the Working Group on Notification Obligations and Procedures², the CTG maintains a listing of notification obligations and the compliance therewith, under all multilateral agreements dealing with trade in goods as included in Annex 1A of the WTO Agreement. This listing is updated and circulated to all Members on an annual basis.³

Central Registry of Notifications (CRN)

The Marrakesh Decision on Notification Procedures provides that the CRN shall remind Members about their unfulfilled notification requirements in respect of all multilateral agreements on a semi-annual basis. The CRN is also mandated to inform the Members annually of the regular notification obligations to which they will be expected to respond in the course of the following year.

Accordingly, the CRN:

sends out the "reminders of unfulfilled notification requirements" to all Members on a semi-annual basis after the relevant information from the concerned functional divisions of the Secretariat has been collected; and also

informs the delegations annually of their regular notification obligations for the following year by sending out the "call for notifications".

¹ As of October 2009, this document is regularly updated and circulated as an official and unrestricted document in the G/AG/GEN/86/ series.

² See G/L/112.

³ These documents are circulated in the G/L/223/series.

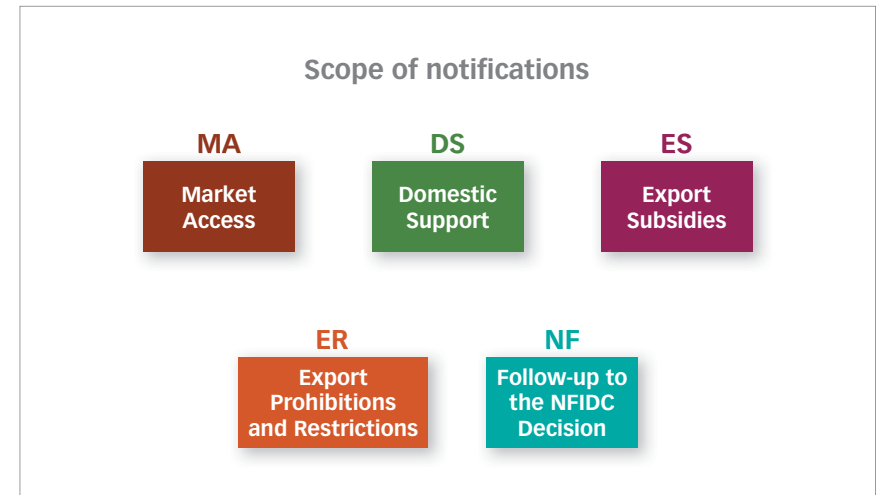

SOURCE

In June 1995, the Committee on Agriculture adopted detailed notification requirements and formats, in order to facilitate the Review Process to be undertaken at each formal meeting. These are contained in documents **G/AG/2** and **G/AG/2/Add.1**.

WHAT TO NOTIFY ?

The scope of the notification requirements in the field of agriculture covers five distinct areas:

- Market access, in relation to:
 - tariff and other quotas; and
 - special safeguard actions;
- Domestic support, in relation to:
 - the Current Total Aggregate Measurement of Support (AMS); and
 - the introduction of new or modification of domestic support measures for which an exemption from reduction commitments is claimed;
- Export subsidies and anti-circumvention of export subsidy rules;
- Export prohibitions or restrictions; and
- Implementation of the Decision on Measures Concerning the Possible Negative Effects of the Reform Programme on Least-Developed and Net Food-Importing Developing Countries (NFIDCs).

WHO ?

In many cases only a limited number of notification requirements will apply for a particular Member. This is because they largely depend on the specific commitments as set out in each Member's Schedule, as well as on the actions that may be taken by that Member in any given implementation year.

WHEN ?

Some notification requirements are *periodic*. They are to be regularly submitted to the Committee on Agriculture in line with the frequency and deadlines established in G/AG/2.

Some notification requirements are *ad hoc*. Notifications become due only where a specific measure is introduced, or about to be introduced.

NOTIFICATION FORMATS

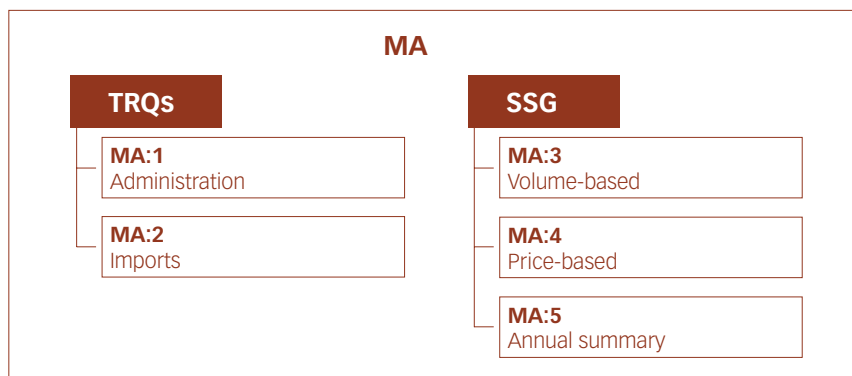

Pages 2-10 of G/AG/2

WHAT TO NOTIFY?

- ▶ The prefix “MA” is used to distinguish the notification formats or “tables” that apply in the area of market access.

These formats belong to two broad categories, i.e.

- **Tariff and other quotas (TRQs)**, as specified in Members’ Schedules:
 - **Table MA:1** relating to tariff quota administration
 - **Table MA:2** relating to the volume of imports under TRQ management
- **Special Agricultural Safeguard (SSG)**, as specified in Members’ Schedules:
 - **Table MA:3** relating to volume-based SSG actions
 - **Table MA:4** relating to price-based SSG actions
 - **Table MA:5** relating to annual summary of SSG actions

NOTIFICATION FORMAT

Page 3 of G/AG/2

WHO?

Only Members having tariff and other quota commitments (TRQs) specified in their WTO Schedules of commitments are required to submit Table MA:1 notifications.

Australia	European Union	Nicaragua
Barbados	Former Yugoslav Republic of Macedonia	Norway
Bolivarian Republic of Venezuela	Guatemala	Panama
Brazil	Iceland	Philippines
Canada	India	South Africa
Chile	Indonesia	Switzerland-Liechtenstein
China	Israel	Chinese Taipei
Colombia	Japan	Thailand
Costa Rica	Korea	Tunisia
Croatia	Malaysia	Ukraine
Dominican Republic	Mexico	United States
Ecuador	Morocco	Viet Nam
El Salvador	New Zealand	

WHAT TO NOTIFY?

- Comprehensive *one-off* notification to include description of tariff quota administration for all TRQs in the Schedule before these are opened for the first time.
- *Ad hoc* notification to include tariff quota administration only for those TRQs where changes in respect of their administration have been implemented.

► Four pieces of information:

- Allocation to supplying countries
- Allocation of licences to importers
- Details of other arrangements (not involving import licences)
- Other relevant information

WHAT IF?

- TRQs are incorporated subsequently to the establishment of initial Schedules (e.g. Chile, India, EU)?

A **Table MA:1** notification would be required for all new scheduled TRQs before they are opened for the first time. Please refer to **Case 4** below under Table MA:1.

WHEN?

- A comprehensive *one-off* notification is required first, in respect of all scheduled TRQs. The notification should be presented normally in advance of opening of the TRQ in question, but in any event no later than 30 days following its opening.
- Where *changes* in administration methods are subsequently introduced, an *ad hoc* notification should be presented prior to those changes being implemented, but in any event no later than 30 days following the implementation of the changes.

HOW TO NOTIFY?

► Case 1:

- ALFA is an original WTO Member whose Schedule has two TRQs (on **butter** and **potatoes**).
- When should ALFA make a “one-off” Table MA:1 notification?

A comprehensive one-off Table MA:1 notification (in 1995) was required in respect of all scheduled TRQs before these are opened for the first time.

Description of the arrangements to be applied in order to provide the market access opportunities specified in the Member's Schedule, including, as appropriate:

- (a) allocation of quotas to supplying countries, including: (i) details of basis for determining the allocation (e.g. representative period or "other terms and conditions" as specified in Part I, Section I of Schedules); (ii) any limitation on the period of access;
- (b) allocation of licenses or of access to quotas to importers, including details of: (i) government agency, trading or administrative body competent to grant licenses or access to quotas, including those which have formally, or in effect, exclusive or special privileges; (ii) any limitations on eligibility of applicants; (iii) how licenses or access are to be allocated by the competent agency (e.g. first-come-first-served, pro rata); (iv) any limitations on the period of validity or use of the licenses granted;
- (c) details of other arrangements (not involving import licenses) under which access to quotas is to be administered;
- (d) any other information relevant to the implementation of market access opportunities under such arrangements.

Butter	0405.00.00
Potatoes	0701.10.00 0701.90.00

Product composition has to match the product composition in the Schedule. Otherwise, a suitable justification needs to be included for the difference between the two.

(a) Allocation to supplying countries:

- (i) Global quota;
- (ii) The tariff quota is open from 1 January to 31 December.

(b) Allocation of licences to importers:

- (i) Allocations are made by the Department of Agriculture;
- (ii) Any company or individual registered for tax purposes may apply for an import licence;
- (iii) Licences are issued on a first-come first-served basis.
- (iv) Licences are valid for four months from the date of issue.

(c) Details of other arrangements (not involving import licences): Not applicable.

(d) Other relevant information: Further information on the tariff quota allocation is published in the national gazette.

(a) Allocation to supplying countries:

- (i) 200 t is allocated to Country X, 150 t to Country Y while the remainder is globally available;
- (ii) The tariff quota is open from 1 January to 30 June.

(b) Allocation of licences to importers:

- (i) Allocations are made by the Department of Agriculture;
- (ii) Any company providing inputs for the agricultural sector may apply for a licence to import seed potatoes (0701.10.00). Table potatoes and potatoes for processing may be imported up to the available quantity;
- (iii) Licences for seed potatoes are issued on a first-come first-served basis with a *pro rata* allocation should the request for licences exceed the tariff quota quantity;
- (iv) Licences are valid for two months from the date of issue.

(c) Details of other arrangements (not involving import licences): Imports without a licence may take place up to the available limit for table potatoes and potatoes for processing.

(d) Other relevant information: Further information on the tariff quota allocation is published in the national gazette.

► **Case 2:**

- ALFA modifies tariff quota administration for **butter** for the implementation year 2007.
- When should ALFA submit a Table MA:1 notification?

An *ad hoc* Table MA:1 notification would be required prior to those changes being implemented but in any event no later than 30 days following the change.

In the *ad hoc* notification presented in Case 2 below, only the **butter** TRQ is included in the Table MA:1 notification in respect of which the changes in the tariff quota administration were made.

There are, however, some examples of notifications where *ad hoc* notifications include administration details in respect of all scheduled TRQs (and not only those where changes in their administration have been made) with relevant changes highlighted in the beginning (e.g. G/AG/N/CHE/13/Add. 10, G/AG/N/THA/45).

► Case 3

- As from calendar year 2008, ALFA decided to reduce the MFN out-of-quota tariff to 5% for **butter**, below the bound in-quota tariff (20%).

- ALFA, therefore, decided not to open the TRQ on **butter** for the calendar year 2008.
- Would ALFA be required to make a Table MA:1 notification?

An *ad hoc* Table MA:1 notification would be required containing information on the non-operation of TRQ on butter. This may be included under entry (d) of column 3: "Other relevant information".

WHAT IF ?

- The MFN out-of-quota tariff for butter is raised, say to 25%, (which then exceeds the bound in-quota tariff of 20%) in the subsequent years and the TRQ for butter is, therefore, again opened.**

An *ad-hoc* Table MA:1 notification would be required containing the administration arrangements for butter imports under the TRQ.

(d) Other relevant information: As from the calendar year 2008, the government decided to apply 5% tariff on all imports of butter which is below the bound in-quota tariff of 20%. It is considered unnecessary to open the tariff quota as long as a tariff below the bound in-quota tariff is in force.</p>

► **Case 4:**

- ALFA undertakes tariff renegotiations under Article XXVIII of GATT 1994.
- As one of the outcomes of the renegotiations, ALFA schedules an additional TRQ on **barley**.
- The tariff quota commitment on **barley** applies as from the calendar year 2009.
- When should ALFA make a Table MA:1 notification?

A Table MA:1 notification containing import arrangements for barley would be required prior to the opening of the barley TRQ but in any event no later than 30 days following its opening.

WHO?

Only Members having tariff quota commitments specified in their WTO Schedules of commitments are required to submit Table MA:2 notifications.

Australia	European Union	Nicaragua
Barbados	Former Yugoslav Republic of Macedonia	Norway
Bolivarian Republic of Venezuela	Guatemala	Panama
Brazil	Iceland	Philippines
Canada	India	South Africa

China	Israel	Chinese Taipei
Colombia	Japan	Thailand
Costa Rica	Korea	Tunisia
Croatia	Malaysia	Ukraine
Dominican Republic	Mexico	United States
Ecuador	Morocco	Viet Nam
El Salvador	New Zealand	

WHAT TO NOTIFY?

- Actual amount of imports against all scheduled TRQs.

It may also be noted that under paragraph 15 of the Committee on Agriculture's Working Procedures (G/AG/1), information may be obtained during the course of an implementation year on the functioning of a specific TRQ, including the quantity of imports effected or authorized under that TRQ.

WHAT IF?

- TRQs are incorporated subsequently to the establishment of initial Schedules (e.g. Chile, India, EU)?

An annual Table MA:2 notification would be required in respect of all scheduled TRQs (i.e. in the initial Schedule as well as those subsequently incorporated therein)

- Some of the scheduled TRQs are not opened?

It should be stated in the Table MA:2 notification for the TRQs concerned along with an explanation. The scope of Table MA:2 notification includes all TRQs inscribed in the Schedule.

WHEN?

- 30 days following the year in question but, in any event, no later than 60 days following the year in question.

There are some examples where more than one annual Table MA:2 notifications are submitted (e.g. TRQs implemented on a calendar year basis are included in one Table MA:2 notification and the remaining ones implemented on a marketing year basis are covered in another annual Table MA:2 notification). Refer for example to

- G/AG/N/EEC/45 and G/AG/N/EEC/48 or
- G/AG/N/CAN/21 and G/AG/N/CAN/23.

HOW TO NOTIFY?

► Case 1:

- ALFA has two tariff quotas (on **butter** and **potatoes**) in its Schedule.
- Tariff quotas on both products were opened in the calendar year 2007.
- How should the information be presented in its Table MA:2 notification?

Note: Butter is not included, as from the year 2008, the government decided to apply 5% tariff on all imports of butter which is below the scheduled in-quota tariff of 20%. Tariff quota on butter is not opened in 2008.

WHAT IF ?

Only a part of the scheduled product coverage is subject to tariff quota operation? Suppose the TRQ is opened only for potatoes in seed (0701.10.00) and not other potatoes (0701.90.00).

A suitable justification (for example, applied tariff for other potatoes is equal to or below the corresponding bound in-quota tariff) should be included, in such cases. Refer, for example, to footnote 2 to poultry TRQ in G/AG/N/CRI/25.

WHO?

Only among the following Members who have reserved the right in the Schedule to use the Special Safeguard Provisions.

Members with no scheduled SSG rights are not allowed to invoke it and thus are not required to make Table MA:3 notification.

Members with scheduled SSG rights, but not having invoked volume-based SSG, are not required to make a Table MA:3 notification. This is an *ad hoc* requirement.

WHAT TO NOTIFY?

- Trigger level, period of application of safeguard action etc. along with calculations justifying the application of the volume-based safeguard measure.

A Table MA:3 is required for each product upon first use of a volume-based special safeguard action in any year.

WHEN?

- Before invoking a volume-based SSG action (as far as practicable), and in any event within 10 days of the implementation of such action.

HOW TO NOTIFY?

► Case 1:

- BETA has the right in its Schedule to apply the SSG on three products: **butter, seed potatoes and apples**.
- BETA applies volume-based SSG on **butter** as from 20 September 2008.
- When and how should it make the Table MA:3 notification?

WHAT IF?

- **The volume-based SSG is applied again by BETA in the year 2009 on the same product (butter)?**

Table MA:3 notification for butter would be required again for 2009 showing the relevant trigger volume calculations etc.

Table MA:3

Case 1, Example 1
(e.g. G/AG/N/JPN/152,
G/AG/N/TPKM/53)

When would BETA need to notify this measure?
Normally before 20 September but before 30 September 2008.

MARKET ACCESS: BETA

Notification under Article 5 of the Agreement: special safeguard: volume-based

(1) Description of product:	Butter
(2) Tariff item number:	0405.00.00
(3) Trigger level: (as calculated in Annex 1)	590 tonnes
(4) Volume of imports entering territory in current period:	652 tonnes
(5) Period of application: (calendar/marketing year or shorter period for perishable or seasonal products (specify))	from 20 September 2008 to 31 December 2008

Why does BETA need to end the application of the measure on 31 December 2008?
Refer to Article 5.4 of the Agreement on Agriculture.

Table MA:3 Notification under Article 5 of the Agreement: special safeguard: volume-based

SPECIAL SAFEGUARD: VOLUME-BASED: Annex 1 to MA:3

Information required for the calculation of the Trigger Level

Imports in the 3 preceding years: (tonnes)	2005:	550
	2006:	566
	2007:	570
	Average:	562

And if import penetration is taken into account:

Consumption in the 3 preceding years: (tonnes)	2005:	990
	2006:	1010
	2007:	1000
	Average:	1000

*Imports and consumption data should correspond to the same period.
Refer to Article 5.4 of the Agreement on Agriculture*

Method of allocation of change in consumption to the tariff line concerned: not applicable

Calculation of trigger level (pursuant to Article 5 of the Agreement on Agriculture):

Import penetration	=	562/1000	
	=	56%	(base trigger therefore equals 105%)
Trigger level	=	(x)+(y)	
	=	(105% x 562 tonnes) + (1000 tonnes - 1010 tonnes)	
	=	590 + (- 10) tonnes	
	=	590 tonnes	

*Why has 105% been used as the base trigger?
Refer to Article 5.4(c) of the Agreement on Agriculture*

*Why were (-10) tonnes not accounted for in the calculations?
Trigger level shall not be less than 105%. Refer to Article 5.4 (last sentence) of the Agreement on Agriculture.*

► Example 2:

When domestic consumption data is either not available or not taken into account in the trigger calculations.

Table MA:3

Case 1, Example 2
(e.g. G/AG/N/JPN/70,
G/AG/N/TPKM/45)

MARKET ACCESS: BETA

Notification under Article 5 of the Agreement: special safeguard: volume-based

- (1) **Description of product:** Butter
- (2) **Tariff item number:** 0405.00.00
- (3) **Trigger level:** 703 tonnes
(as calculated in Annex 1)
- (4) **Volume of imports entering territory in current period:** 710 tonnes
- (5) **Period of application:** from 20 November 2008 to 31 December 2008
(calendar/marketing year or shorter period for perishable or seasonal products (specify))

Volume in entry 4 has to exceed the trigger volume in entry 3.
Refer to Article 5.1(a) of the Agreement on Agriculture

Compared to example 1 above, the safeguard action commenced later. Action possible only when actual imports exceed the trigger level, which is higher in example 2.
Refer to Article 5.1(a) of the Agreement on Agriculture.

Table MA:3 Notification under Article 5 of the Agreement: special safeguard: volume-based

SPECIAL SAFEGUARD: VOLUME-BASED: Annex 1 to MA:3

Information required for the calculation of the Trigger Level

Imports in the 3 preceding years: (tonnes)	2005:	550
	2006:	566
	2007:	570
	Average:	562

And if import penetration is **not** taken into account:

Calculation of trigger level (pursuant to Article 5 of the Agreement on Agriculture):

$$\begin{aligned}
 \text{Trigger level} &= (x)+(y) \\
 &= (125\% \times 562 \text{ tonnes}) \\
 &= 703 \text{ tonnes}
 \end{aligned}$$

Domestic consumption data, when used in the trigger calculations (as in Example 1 above) affects the trigger level by influencing the value of:

- the "x" component (by way of determining the "base trigger level") and
- the "y" component (which equals the absolute change in domestic consumption in the most recent year compared to the preceding year).

When domestic consumption data is not taken into account in the trigger calculations (as in this example):

- the "base trigger level" for the "x" component is fixed at 125%, and
- the "y" component is zero.

Refer to footnote 3 of the Agreement on Agriculture.

NOTIFICATION FORMAT

Pages 8-9 of G/AG/2

WHO?

Only among the following Members who have reserved the right in the Schedule to use the Special Safeguard provisions.

Members with no scheduled SSG rights are not allowed to invoke it and thus are not required to make Table MA:4 notification.

There is a possibility to make an *up-front* notification of trigger prices any time before the first invocation of a price-based SSG on relevant products.

If a Member decides to notify on a case-by-case basis in the form of *ad hoc* notifications, such notifications would be required only when a price-based SSG is actually invoked on a product and only upon its first invocation.

Australia	Iceland	Norway
Barbados	Indonesia	Panama
Bolivarian Republic of Venezuela	Israel	Philippines
Botswana	Japan	South Africa
Canada	Korea	Swaziland
Colombia	Malaysia	Switzerland-Liechtenstein
Costa Rica	Mexico	Chinese Taipei
Ecuador	Morocco	Thailand
El Salvador	Namibia	Tunisia
European Union	New Zealand	United States
Guatemala	Nicaragua	Uruguay

WHEN?

- Anytime before invoking a price-based SSG on a product for the first time in the form of an *up-front* notification;
- If no up-front notification for the product(s) concerned, an *ad hoc* notification as far as practicable before invoking a price-based SSG and in any event within 10 days of the implementation of such action.

WHAT TO NOTIFY?

- Trigger price for product(s) subject to a price-based SSG along with calculations to derive the trigger price and the source of price information.

HOW TO NOTIFY?

► Case 1:

- BETA has the right in its Schedule to apply the Special safeguard provisions on three products: **butter, seed potatoes** and **apples**.
- BETA decides to notify trigger prices for two eligible products, for example, **butter** and **seed potatoes** through an *up-front* notification.
- When and how should it make this *up-front* Table MA:4 notification?

WHAT IF?

- The price-based SSG is applied on butter after the circulation of the above-mentioned *up-front* Table MA:4 notification?**

There would be no need to circulate a Table MA:4 notification. Trigger prices for a product are to be notified only once. The trigger prices being based on average import unit values during a fixed reference period (i.e.1986-88) would not change once notified.

However, there are examples of subsequent Table MA:4 notifications on the same product even when the relevant trigger price was already notified, e.g. G/AG/N/CRI/11 and G/AG/N/CRI/14.

WHO?

All the following Members who have reserved the right in the Schedule to use the Special Safeguard Provisions.

Members with scheduled SSG rights are required to make an annual Table MA:5 notification, irrespective of whether a safeguard measure was actually invoked in a reporting year.

Australia	Iceland	Norway
Barbados	Indonesia	Panama
Bolivarian Republic of Venezuela	Israel	Philippines
Botswana	Japan	South Africa
Canada	Korea	Swaziland
Colombia	Malaysia	Switzerland-Liechtenstein
Costa Rica	Mexico	Chinese Taipei
Ecuador	Morocco	Thailand
El Salvador	Namibia	Tunisia
European Union	New Zealand	United States
Guatemala	Nicaragua	Uruguay

WHEN?

- No later than 30 days following the year in question.

WHAT TO NOTIFY?

- Annual summary of safeguard actions taken during the relevant implementation year.
- Where the special safeguard provisions were not invoked in any year, a Nil statement should be notified (e.g. Case 2 on page 38 below).

Though not necessarily required under the agreed Table MA:5 format, some Table MA:5 notifications also include information on volume of imports affected by safeguard actions, e.g. G/AG/N/KOR/39, G/AG/N/CHE/27/Rev.1, G/AG/N/USA/67.

HOW TO NOTIFY?

► Case 1:

- BETA invoked volume-based SSG on **butter** during 2008 (refer to **Case 1** (Example 1) under Table MA:3 above).
- During 2008, BETA also applied price-based SSG on **apples** (refer to **Case 2** under Table MA:4 above).

► **Case 2:**

- GAMMA has the right to apply the SSG on a number of agricultural products in accordance with its Schedule.
- GAMMA did not invoke the SSG during calendar year 2008, i.e. neither price-based nor volume-based SSG was actually applied in the calendar year 2008 by GAMMA.
- Could GAMMA “skip” this notification requirement? If not, when should it notify?

WHEN?

- **For Members with Total AMS commitment** in Part IV of their Schedule:
 - No later than 90 days following the end of the calendar (or, marketing, fiscal, etc.) year in question.¹
- **For Members with no Total AMS commitment** in Part IV of their Schedule:
 - Annually.
- **Least-developed country Members:**
 - Once every two years.

WHAT TO NOTIFY?

- Information on all domestic support measures being applied by a Member in a reporting year along with their monetary values.
- Where no domestic support measure is applied by a Member in a reporting year, a Nil statement should be made (**see for example cases 1 and 2 below on pages 54, 55**).

¹ Where the notification submitted within the 90 day period is provisional, the final notification should be submitted no later than 120 days following the end of the year.

What to notify		Which Table/Supporting Table ¹ (ST DS)	Comments
Overall non-exempt support amount (i.e. Current Total AMS)		Table DS:1	<ul style="list-style-type: none"> Overall non-exempt support amount (i.e. Current Total AMS) alongside the scheduled Total AMS commitment level for the year in question is reported in Table DS:1. As shown in later case examples, it may also be used to notify <ul style="list-style-type: none"> that no domestic support measure was applied (Nil statement), or a statement that all non-exempt support was covered under the <i>de minimis</i> exemption.
These three supporting tables cover " exempt " categories of support.	Green Box measures (Annex 2)	ST DS:1	All Green Box measures, if existing, in the relevant year would need to be included in ST DS:1 along with the <u>monetary value</u>
	Development Programmes (Article 6.2) (applicable only to developing country Members)	ST DS:2	All measures, if existing, in the relevant year covered under Article 6.2 are reported here along with the <u>monetary value</u>
	Blue Box measures (Article 6.5)	ST DS:3	All Blue Box measures, if existing, in the relevant year are reported here along with the <u>monetary value</u>
These six supporting tables cover " Non-exempt " or Amber Box support.	Calculation of Current Total AMS	ST DS:4	Product-specific AMS (ST DS:7) or EMS (ST DS:8) for <u>all</u> products receiving such support and total non-product-specific AMS (ST DS:9) are summed up here. Support amounts (whether product-specific or non-product-specific) that are claimed to be within the relevant <i>de minimis</i> levels are left out of summation. Total support is called "Current Total AMS" and is carried over to column 3 of Table DS:1.
	Market price support	ST DS:5	Support measures for all products receiving market price support are reported here along with necessary calculations. This table is not needed if no market price support exists in a relevant year.
	Non-exempt direct payments	ST DS:6	Support measures for all products receiving non-exempt direct payments (whether price-contingent or otherwise) are reported here along with necessary calculations. This table is not needed if no such support exists in the relevant year.
	Other product-specific support, and Total Product-specific AMS	ST DS:7	All other product-specific support measures, i.e. not covered under either market price support (ST DS:5) or non-exempt direct payments (ST DS:6) are included in ST DS:7 . Since market price support and non-exempt direct payments measures (as taken from ST DS:5 and ST DS:6 respectively) are also included in ST DS:7 , this table consolidates <u>Total</u> product-specific AMS for <u>all products</u> receiving non-exempt support.
	Product-specific EMS	ST DS:8	Equivalent measurement of support (EMS) for all products are reported here along with necessary calculations. This table is not needed if no such support exists in the relevant year.
	Non-product-specific AMS	ST DS:9	All <u>individual</u> non-product-specific measures are reported here. Individual amounts are then summed up and the total non-product-specific AMS figure is brought forward to ST DS:4 .

¹ Information on the various support measures is to be organized in relevant Supporting Tables according to "Measure type(s)" as per the agreed notification formats in G/AG/2.

HOW TO NOTIFY?

► Broadly, there are four possible situations:

- (i) No domestic support measure is applied in the relevant year;
- (ii) Only exempt support measures are applied in the relevant year;
- (iii) Only non-exempt measures are applied in the relevant year;
- (iv) Both exempt as well as non-exempt measures are applied in the relevant year.

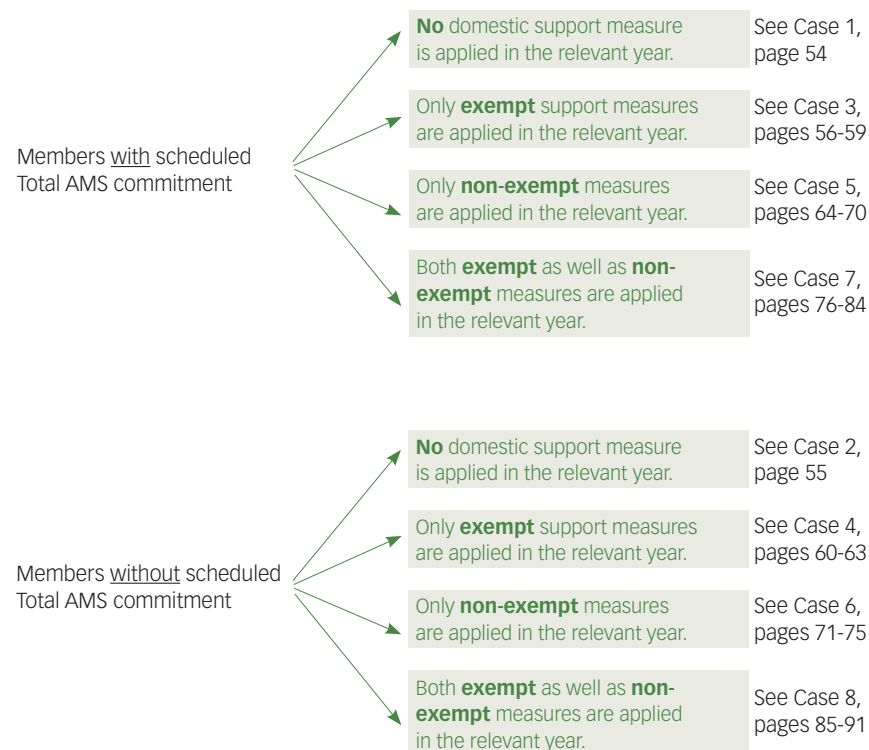

These four situations may then apply to the following two categories of Members:

(a) Members with Total AMS commitment¹ in Part IV of the Schedule, as follows:

Argentina	Iceland	Papua New Guinea
Australia	Israel	Saudi Arabia
Bolivarian Republic of Venezuela	Japan	South Africa
Brazil	Jordan	Switzerland-Liechtenstein
Canada	Korea	Chinese Taipei
Colombia	Mexico	Thailand
Costa Rica	Moldova	Tunisia
Croatia	Morocco	Ukraine
European Union	New Zealand	United States
Former Yugoslav Republic of Macedonia	Norway	Viet Nam

(b) Members with no Total AMS commitment in Part IV of the Schedule which include all Members other than those listed above.

Eight possible situations would then arise:

► Case 3:

- ALFA is a developing country Member with Total AMS commitment in Part IV of its Schedule.
- ALFA provided the following exempt domestic support measures in the reporting year 2008:
 - General Services programmes (Research, and marketing services) under the Green Box, and
 - Input subsidies to low-income or resource-poor farmers under Article 6.2 of the Agreement on Agriculture.
- How should the information be presented in its Table DS:1 notification?

What would be the composition of its notification?

 - **ST DS:1** (General Services programmes (Research, and marketing services))
 - **ST DS:2** (Input subsidies to low-income or resource-poor producers)
- **no** ST DS:3 as no Blue Box measure is applied and
- **no** ST DS:4 to ST DS:9 as these are used to notify “**non-exempt**” support measures.

Despite having only exempt measures, it is important to include the summary Table DS:1 to show the Total AMS commitment vis-à-vis zero Current Total AMS.

In accordance with the notification requirements (paragraph (ii), page 11 of document G/AG/2), ALFA notifies that domestic support to agricultural producers in 2008 was provided through the operations of the Department of Agriculture and other government departments. All such support is covered by the domestic support categories which are exempt from reduction commitments under the Agreement on Agriculture. The attached **Supporting Tables DS:1** and **DS:2** provide details of these exempt measures.

Green Box Article 6.2

Such a situation of zero Current Total AMS in Table DS:1 may also arise if non-exempt support (whether product-specific or non-product-specific) is provided but it does not exceed the relevant *de minimis* levels, but the composition of the notification in terms of supporting tables would not be the same as mentioned above (i.e. ST DS:1 and ST DS:2 only). If there are non-exempt measures applied, the notification would also include ST DS:4 and other relevant supporting tables.
e.g. G/AG/N/BRA/6/Rev.1, G/AG/N/JOR/3, G/AG/N/TUN/30, G/AG/N/CRI/6.

General services	Co-operative marketing programme: Provision of marketing facilities through co-operatives to provide for the accumulation of commercial quantities of goods (Annex 2, §2(f))	30	"Estimates and expenditures", Department of Agriculture

Column 1 labels under the heading "measure type" are taken from G/AG/2 (page 13) by reference to Annex 2, paragraphs 2-13 of the Agreement on Agriculture.

This type of reference to the corresponding Green Box criteria may also facilitate the Review Process.

► **Case 4:**

- BETA is a developing country Member with no Total AMS commitment in Part IV of its Schedule.
- BETA provided the following exempt domestic support measures in the reporting year 2008:
 - General Services programmes (Infrastructural services) under the Green Box,
 - Public stockholding of wheat and sugar for food security purposes under the Green Box,
 - Domestic food aid programme to assist low-income families to obtain staple food under the Green Box, and
 - Investment subsidies generally available to agriculture under **Article 6.2** (subsidized credit to agricultural producers in general)
- How should the information be presented in its Table DS:1 notification?

→ **WHAT IF ?**

BETA is not a developing country Member or is a Member who does not have access to Article 6.2?
 The measure highlighted above would be considered for inclusion in the AMS calculations. As support is available to agricultural producers in general, the measure would be appropriately considered for inclusion in ST DS:9 as non-product-specific support. Please refer to **ST DS:9** in **Case 6** below.

How would the composition of the notification in Case 4 be different from Case 3?

The only difference *vis-à-vis* **Case 3** would be that the summary **Table DS:1** showing the Total AMS commitment would be empty. Alternatively, the **Table DS:1** format may be omitted.

ST DS:1 (Green Box) and **ST DS:2** (Article 6.2) would be needed as in **Case 3**.

General services is a category of measures often utilized by Members, especially by developing country Members.

To categorize a measure under **general services**, in addition to the basic criteria prescribed for Green Box measures (i.e. **Paragraph 1 of Annex 2 of the Agreement on Agriculture**), the Members must ensure that the measure shall not involve **direct payments** to producers or processors (refer to **Paragraph 2 of Annex 2 of the Agreement on Agriculture**).

In addition, for measures covered under **infrastructural services**, the highlighted section above includes a criteria to be respected for such measures. During the Review Process, this has been a recurrent theme of questions raised by other Members concerning measures notified under infrastructural services.

Milk	80		80
Wheat	20		0 (<i>de minimis</i>) ¹
Non-product-specific AMS	132		132
TOTAL (Current Total AMS)			212

Calculations:

de minimis level = 10% of the value of wheat production in 2008
 = 10% of \$250 million
 = \$25 million
 product-specific AMS for wheat = \$20 million
 Product-specific AMS for wheat <= *de minimis* level

This is total non-product-specific AMS and the total figure comes from **ST DS:9**.

This is carried over to column 3 of **Table DS:1**.

Some notifications include an additional column in **ST DS:4** showing the value of production (VoP) to justify *de minimis* exemptions (e.g. G/AG/N/EEC/64, G/AG/N/USA/66). There are also examples where calculations justifying *de minimis* exemptions are included in Supporting Tables other than ST DS:4 (e.g. G/AG/N/AUS/41, G/AG/N/BRA/23)

Irrespective of the Supporting Table used for justifying *de minimis* claims, what is, however, always expected by Members is the inclusion of relevant VoP data (i.e., of relevant products for product-specific *de minimis* or total agricultural production for non-product-specific *de minimis* claims) in the notification. The information can be included as a footnote (as in this example) or in an additional column in **ST DS:4** (e.g. G/AG/N/CHN/17); there is no defined format. If not included, such data is generally requested by Members during the Review Process.

¹ The total value of wheat production in 2008 was \$250 million (source of information is "Estimates and expenditures", Department of Agriculture). Under the provisions of Article 6.4 of the Agreement on Agriculture, the notified product-specific AMS for wheat falls below the *de minimis* level (10%) and thus need not be included in the calculation of the Current Total AMS.

Product-Specific Aggregate Measurements of Support: Market Price Support

This is "production **eligible** to receive the applied administered price" (refer to paragraph 8 of Annex 3 of the Agreement on Agriculture)

Description of basic products	Calendar / marketing year beginning ...	Measure type(s)	Applied administered price (\$/tonnes)	External reference price (generally from AGST/...) (\$/tonnes)	Eligible production (tonnes)	Associated fees/levies (\$ million)	Total market price support (\$ million)	Data sources
1	2	3	4	5	6	7	8 ((4-5)*6)-7	9
Milk	Calendar year	intervention purchasing (partially producer funded)	255	200	2,000,000	30	80	*

It is generally understood that the External reference price (ERP) and the applied administered price (AP) must be calculated at an equivalent stage of processing of the basic agricultural product concerned. For example, if AP corresponds to milk, the ERP to be used in the MPS calculations should also correspond (or be converted) to the same stage of processing, i.e. milk.

Intervention price

ERP comes from Members' supporting data (AGST tables). The ERP remains fixed for a product, i.e. if market price support (MPS) is continued for milk say in 2009, ERP for **milk** would continue to be \$200/t and would be compared with the applied administered price for the year 2009 in the MPS calculations for 2009.

What if :

Product (say milk) subject to MPS in a reporting year does not appear in AGST (i.e. milk was not subject to MPS during the base years used in the AGST documentation)?

ERP would need to be calculated in accordance with paragraph 9 of **Annex 3 of Agreement on Agriculture:**

- average FOB unit value of the product during the base period (i.e. 1986-88) if Member was a net-exporting country for the product concerned in that period or
- average CIF unit value of the product during the base period if the Member was net-importing country in that period).

Once calculated as per the methodology above, the ERP for that product would remain fixed for that Member for subsequent reporting years.

This will be carried over to ST DS:7 for the calculation of product-specific AMS for **Milk**.

1	2	3	4
Payments based on fixed area and yields	Set-aside: Payments made under the set-aside scheme require farmers to set-aside 8% of their arable area. For the purposes of this scheme, the relevant area is that shown to have been planted in 1993 (2.5 million hectares) and average yields for 1992-1994 are used (on average 3.8 t/ha).	560	"Estimates and expenditures", Department of Agriculture
Livestock payments made on a fixed number of head	Stock retention: Payments are made on a maximum of 50 head of cattle or the number farmed in 1991 - whichever is the lesser. In order to be eligible to participate in the scheme, farmers must reduce total stock numbers by at least 10% from 1991 numbers.	1,679	""

All products receiving product-specific AMS or product-specific EMS are to be included in column 1 of ST DS:4.

This is **Current Total AMS** and is carried over to column 3 of Table DS:1.

¹ The total value of milk production in 2008 was \$800 million (source of information is "Estimates and expenditures", Department of Agriculture). Under the provisions of Article 6.4 of the Agreement on Agriculture, the support amount for milk falls below the *de minimis* level (5%) and hence does not need to be included in the calculation of the Current Total AMS.

Support for **wheat** falls under "other" product-specific AMS. It cannot be included in **ST DS:5** (MPS) or **ST DS:6** (direct payments). It is therefore reflected in **ST DS:7**

ST DS:7, has a dual purpose:

1. It includes other product-specific support measures, as in the above example.
2. It sums up various types of product-specific AMS amounts to arrive at one single product-specific AMS (i.e. column 10) which is then carried over to **ST DS:4**.

These figures correspond to **Total** product-specific AMS and are carried over to column 2 of **ST DS:4**.

► Case 8:

- BETA is a developing country Member with no Total AMS commitment in Part IV of its Schedule.
- BETA provided the following exempt and non-exempt domestic support measures in the reporting year 2008:
 - Green Box measures (General Services and Domestic food aid)
 - Article 6.2 programme (Investment subsidy generally available to agriculture)
 - direct payments for maize (per tonne payment, budgetary outlay of \$1 million)
 - subsidized credits for agricultural producers in general to buy seeds and fertilizers (preferential interest rate of 8% whereas average market interest rate during the year was 18%. Loan disbursed in 2008 was \$600 million.)
- How should the information be presented in its Table DS:1 notification?

What would be the composition of the notification in terms of various Tables in the notification?

- summary **Table DS:1** (where Current Total AMS may be indicated as “*de minimis*”)
 - **ST DS:1** (Green Box)
 - **ST DS:2** (Article 6.2 measures)
 - **ST DS:6** (direct payments for Maize)
 - **ST DS:9** (subsidized credit for agricultural producers, why? Because it is in favour of agricultural producers, in general and hence Non-product-specific)
 - **ST DS:4** (for the calculation of Current Total AMS)
- and **no**
 - **ST DS:3**: (no Blue Box measures).
 - **ST DS:5** (as there are no Market price support measures)
 - **ST DS:7** (as there are no “other product-specific measures” to be included in ST DS:7. Total product-specific AMS is only what is already included in **ST DS:6**).

General services	Quarantine and veterinary services: Provision of veterinary expertise and quarantine services at both the border and on-farm in the form of an eradication programme for diseased animals. (Annex 2, §2(b))	94	Annual statistics, Department of Agriculture
Domestic food aid	Domestic food aid entitlement for low-income families: these families can purchase food directly from a government agency at a sharply reduced price. (Annex 2, §4)	30	Annual statistics, Department of Agriculture

WHAT IF ?

This domestic food aid is a new programme and was first time introduced in 2008 ?

As the programme is covered under one of the three “**exempt**” categories (i.e. Green Box, Blue Box or Article 6.2), in accordance with Article 18.3 of the Agreement on Agriculture, BETA would be required to submit a separate **Table DS:2** notification (format and timelines discussed on pages 92-93 below) explaining, *inter alia*, how the programme meets the criteria under Annex 2.

For a Member with no Total AMS commitment, product-specific AMS for **each** product receiving such support as well as non-product-specific AMS should not exceed the *de minimis* level, otherwise this would constitute a breach of its commitment under **Article 7.2(b) of the Agreement on Agriculture**.

1 The total value of Maize production in 2008 was \$80 million (source of information is "Estimates and expenditures", Department of Agriculture). Under the provisions of Article 6.4 of the Agreement on Agriculture, the reported amount of support falls below the *de minimis* level (10%). Therefore, it does not need to be included in the calculation of the Current Total AMS.

2 The value of total agricultural production in 2008 was \$800 million (source of information is "Estimates and expenditures", Department of Agriculture). Under the provisions of Article 6.4 of the Agreement on Agriculture, the reported amount of support falls below the *de minimis* level (10%). Therefore, it does not need to be included in the calculation of the Current Total AMS.

WHO?

All Members, when they introduce a new measure or modify an existing measure that they consider as exempt from reduction commitment.

WHAT TO NOTIFY?

Details of the new or modified measure and its conformity with relevant criteria for exemption. There are three possible categories of 'exempt' support under the Agreement on Agriculture:

- Annex 2 (Green Box),
- Article 6.2 (Development Programmes), and
- Article 6.5 (Blue Box).

WHEN?

As far as practicable before such measures are adopted and in any event within 30 days of adoption.

Table DS:2 Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

HOW TO NOTIFY?

► Case 1

- ALFA is a developing country Member.
- ALFA introduced a new Fertilizer subsidy programme for low-income or resource-poor producers in 2008.
- ALFA intends to notify it as an 'exempt' measure under Article 6.2 of the Agreement on Agriculture.
- When and how should the information be presented in its Table DS:2 notification?

The measure should be notified as far as practicable before it is adopted and in any event within 30 days of adoption.

Table DS:2 Case 1
e.g. G/AG/N/MEX/14

DOMESTIC SUPPORT: ALFA

Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

- (1) Full title of measure:** Fertilizer Subsidy Scheme.
- (2) Domestic legislation reference:** Strategic Inputs Support Scheme published in Official Gazette of 4 September 2007
- (3) Detailed description of measure with reference to criteria, i.e. those in:**
Article 6.2: The Programme defines low-income producers as those with a maximum agricultural land of 10 hectares or an annual income of less than USD 10000. The scheme supports eligible producers by providing them with available nitrogenous fertilizers at 50% of the market price. The government bears the rest of the cost. The support is in the form of input subsidies and is provided only to low-income or resource-poor producers. The programme is therefore covered under Article 6.2 of the Agreement on Agriculture.
- (4) Cost of measure:** Estimate for 2008: \$3 million
- (5) Date of entry into effect:** 1 January 2008
- (6) Period of application:** Unlimited
- (7) Products to principally benefit (if any individual product(s)):** No specific product. Applicable to resource-poor agricultural producers.

Table DS:2 Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

► Case 2

- The Table DS:1 notification from BETA (refer to Case 8 above) came up for review in the Committee on Agriculture.
- Some Members asked whether the “domestic food aid” programme included in ST DS:1 was a new support measure. If yes, Members insisted that BETA should submit a Table DS:2 notification.
- BETA responded that the measure in question was indeed a new support measure introduced in 2008 and agreed that a Table DS:2 notification would be circulated to Members soon.
- How should the information be presented in its Table DS:2 notification?

Table DS:2

Case 2
e.g. G/AG/N/ZAF/68

DOMESTIC SUPPORT: BETA

Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

- (1) Full title of measure:** Domestic food aid entitlement for low-income families.
- (2) Domestic legislation reference:** Law 1995/345 of 20 April 2008
- (3) Detailed description of measure with reference to criteria, i.e. those in:**
Annex 2: Green Box: domestic food aid; Through a system of discount cards issued to families considered to be in a low-income category, the families can purchase food directly from a government agency at a sharply reduced price. The foods include dairy products, rice, cereal products and vegetable oils. Purchases of food necessary to operate the scheme are made by the government agency at the current market price (the government agency may also import the food as necessary given the domestic/external price relationships).
- (4) Cost of measure:** Estimate for 2008: \$30 million
- (5) Date of entry into effect:** 1 June 2008
- (6) Period of application:** Unlimited
- (7) Products to principally benefit (if any individual product(s)):** No individual product

Table DS:2 Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

► Case 3

- GAMMA has a set-aside programme in their domestic support system.
- The programme has been covered under the Blue Box (refer to ST DS:3 in Case 7 above) in its Table DS:1 notifications.
- In the year 2009, GAMMA expanded the product coverage under the set-aside programme and included soybeans as one of the products eligible for support.
- Will there be a need to circulate a Table DS:2 notification?
- If yes, how should the information be presented in its Table DS:2 notification?

This is a situation where an existing “exempt” measure is modified. A Table DS:2 notification would be required. The measure should be notified as far as practicable before it is adopted and in any event within 30 days of adoption.

Table DS:2 Case 3
e.g. G/AG/N/EEC/47

DOMESTIC SUPPORT: **GAMMA**

Notification under Article 18:3 of the Agreement: New or modified domestic support measures exempt from reduction

- (1) **Full title of measure:** Regulation amending the set-aside programme No. 371 (amending the Law 320 of 1 January 1998)
- (2) **Domestic legislation reference:** Law 320 of 1 July 2009 published in Government Legislation Handbook 2009
- (3) **Detailed description of measure with reference to criteria, i.e. those in:**
Exempt direct payments under Article 6.5(a)(i): The aid is granted to soyabean producers under the set-aside programme. Payments made under the set-aside scheme require farmers to set-aside 8% of their arable area. Base area is that shown to have been planted in 1993 and average yields are based on 1992-1994. The payments are based on fixed area and fixed yields and covered under Article 6.5(a)(i) of the Agreement on Agriculture.
- (4) **Cost of measure:** The additional costs of this measure will be USD 5 million annually.
- (5) **Date of entry into effect:** 1 June 2010
- (6) **Period of application:** Unlimited
- (7) **Products to principally benefit (if any individual product(s)):** Soybeans

WHO TO NOTIFY?

All Members

WHEN TO NOTIFY?

- **For Members with export subsidy reduction commitments** in Part IV of their Schedule:

No later than 60 days¹ following the end of the calendar (or, marketing, fiscal, etc.) year in question.

The following are Members with export subsidy reduction commitments in Part IV of their Schedule.

Australia	Iceland	Panama
Bolivarian Republic of Venezuela	Indonesia	South Africa
Brazil	Israel	Switzerland-Liechtenstein
Canada	Mexico	Turkey
Colombia	New Zealand	United States
European Union	Norway	Uruguay

- **For Members with no export subsidy reduction commitments** in Part IV of their Schedule:

No later than 30 days following the end of the calendar (or, marketing, fiscal, etc.) year in question.

¹ Where the notification submitted within the 60 day period is provisional, the final notification should be submitted no later than 120 days following the end of the year.

WHAT TO NOTIFY

(i) For Members with export subsidy reduction commitments in Part IV of their Schedule:

- Amount of export subsidies both in quantity and outlay vis-à-vis the scheduled commitments levels and the amount of food aid for all products subject to scheduled reduction commitments.
- If export subsidies are provided in the year in question, Table ES:1 notification should also contain:
 - the Supporting Table ES:1 (ST ES:1) showing the amount of export subsidies disaggregated according to the various sub-categories (as in columns 2-7 of ST ES:1); and/or
 - if applicable, i.e. in the case of developing country Members, the Supporting Table ES:2 (ST ES:2) showing the amount of export subsidies disaggregated according to the two possible exempt sub-categories of export subsidies (as in columns 3-4 of ST ES:2).

(ii) For Members with no export subsidy reduction commitments in Part IV of their Schedule:

- A confirmation that no export subsidies have been granted (i.e. "Nil statement").
- If the Member is a developing country, application of exempt export subsidies in accordance with Article 9.4. If exempt export subsidies are provided in the year in question as per Article 9.4, the Table ES:1 notification should also contain the ST ES:2 showing the amount of export subsidies disaggregated according to the two possible categories of export subsidies, i.e.:
 - the provision of subsidies to reduce the costs of marketing exports of agricultural products (other than widely available export promotion and advisory services) including handling, upgrading and other processing costs, and the costs of international transport and freight; and
 - internal transport and freight charges on export shipments, provided or mandated by governments, on terms more favourable than for domestic shipments.

HOW TO NOTIFY

As the case examples below illustrate, the content of a Table ES:1 notification depends upon whether a Member has scheduled export subsidy reduction commitment or not.

► Case 1:

- DELTA is a Member with export subsidy reduction commitments for two products, **wheat** and **oranges**, in Part IV of its Schedule.
- DELTA provided export subsidies for both scheduled products in the reporting year 2008.
- DELTA provided food aid only in respect of **wheat** and **skimmed milk powder** in 2008.
- How should the information be presented in its Table ES:1 notification?

These are the actual amounts of export subsidies provided in the reporting year 2008

The information on food aid is required **in column 5 of Table ES:1** for all products subject to export subsidy reduction commitments, i.e. wheat and oranges, in this case.

Why is the information on food aid for **skimmed milk powder** not included?
This is because Table ES:1 includes information on food aid only in respect of products which are subject to reduction commitments. Food aid information in respect of other products should be included in Table ES:3 and/or Table NF:1.

These entries come from the Schedule

¹ Members are to provide data on food aid to all destinations.

EXPORT SUBSIDIES: DELTA

REPORTING PERIOD: Calendar year 2008

Export Subsidies: Budgetary Outlay and Quantity Reduction Commitments

Delta notifies that it provided no export subsidies to agricultural products in 2008. It also notifies that (no food aid) was provided in 2008.

This statement is necessary so as to complete the information required in **column 5 of Table ES:1**. In the absence of such information on food aid, the notification would be deemed incomplete. In the past, where the original Table ES:1 notification did not contain the information on food aid, it was sometimes included subsequently in the form of an addendum, e.g. G/AG/N/COL/26/Add.1, G/AG/N/IDN/13/Add.1.

EXPORT SUBSIDIES: EPSILON

REPORTING PERIOD: Calendar year 2008

Export Subsidies: Budgetary Outlay and Quantity Reduction Commitments

Epsilon notifies that it provided no export subsidies to agricultural products during the calendar year 2008.

In this case, the information on food aid is not required to be included in column 5 of Table ES:1. This is because EPSILON is a Member without export subsidy reduction commitments.

Table ES:1 Budgetary Outlay and Quantity Reduction Commitments

► **Case 4:**

- PHI is a developing country Member with no export subsidy reduction commitments in Part IV of its Schedule.
- PHI provided only categories of export subsidies in the year 2000 for which it had claimed exemption in accordance with Article 9.4.¹
- How should the information be presented in its Table ES:1 notification?

¹ Under the Agreement on Agriculture, the exemption in respect of export subsidies under Article 9.4 applies to developing country members during the implementation period, provided that these are not applied in a manner that would circumvent reduction commitments.

WHO?

- Members with export subsidy reduction commitments in Part IV of their Schedule, as well as
- Members designated as “significant exporters”, i.e. Members whose share of total world exports in any one or more of the following products or groups of products exceeds 5% (list contained in G/AG/2/Add.1):

Significant Exporters	Product Group
Australia	Wheat and wheat flour
Argentina	Coarse grains
Pakistan, Thailand	Rice
Argentina, Brazil, United States	Oilseeds
Argentina, Indonesia, Malaysia, Philippines	Vegetable oils
Argentina, United States	Oilcakes
Australia, Cuba, Thailand	Sugar
New Zealand	Butter and butter oil
New Zealand	Skim milk powder
New Zealand	Cheese
New Zealand	Other milk products
Australia, New Zealand	Bovine meat
Canada	Pigmeat
Thailand	Poultry meat
Australia, New Zealand	Sheepmeat
Chile, Costa Rica, Honduras, Philippines, United States	Fruit
United States	Vegetables
United States, Zimbabwe	Tobacco
Australia, Pakistan, United States	Cotton

WHEN?

No later than 120 days following the end of the calendar (or, marketing, fiscal, etc.) year in question.¹

WHAT TO NOTIFY?

(i) For Members with export subsidy reduction commitments in Part IV of their Schedule:

Amount of total exports for all products subject to reduction commitments.

(ii) For following Members designated as “significant exporter” for the concerned product or product group(s).

Amount of total exports for all products or product group(s) in respect of which it is designated as “significant exporter”.

Members with no scheduled export subsidy reduction commitments, or Members who are not “significant exporters”, are not required to submit any Table ES:2 notification.

¹ During the first two years of implementation, where the notification submitted within the 120 day period was provisional for any product or group of products, the final notification was to be submitted no later than 180 days following the end of the year.

* Exports also took place without export subsidization due to high international market prices.

All products subject to export subsidy reduction commitments, i.e. wheat and oranges, are to be included in Table ES:2.

Such a clarification is generally expected from the notifying Member whenever the quantity of total exports in column 3 of Table ES:2 exceeds the scheduled quantity commitment level for the product concerned (e.g. wheat, please refer to **Case 1** above under **Table ES:1**). This is keeping in view the provision in **Article 10.3 of the Agreement on Agriculture**.

► **Case 2:**

- GAMMA is a Member with export subsidy reduction commitments for a single product, soybean oil, in Part IV of its Schedule.
- GAMMA is included in the list of “significant exporters” in respect of **coarse grains**.

WHO?

- Only food aid donor Members.

WHEN?

- No later than 120 days following the end of the year in question.

WHAT TO NOTIFY?

- Quantity of total food aid to all destinations (unless this information is already required to be provided in **column 5** of **Table ES:1**, i.e. for Members with export subsidy reduction commitments for relevant products inscribed in the Schedule.)

HOW TO NOTIFY

► Case 1:

- DELTA provided **wheat** and **skimmed milk powder** as food aid in the year 2008.

Why has the food aid data in respect of **wheat** not been included in Table ES:3?

- It should have already been included in **column 5 of Table ES:1** as this is a product in respect of which DELTA has export subsidy reduction commitments (please refer to **Case 1** above under **Table ES:1**).
- There are, however, examples of notifications where food aid information is included in column 5 of Table ES:1 for a product subject to reduction commitment and the same product also appears in Table ES:3. The explanation generally provided for such cases is that the amount of food aid in column 5 of Table ES:1 is sourced domestically, whereas the amount of food aid in Table ES:3 for the same product may be either locally sourced in the recipient country, or sourced from third countries through triangular transactions. (e.g. footnote 2 to Table ES:3 in G/AG/N/EEC/61).

Table ES:3 Notification of the total volume of food aid

► **Case 2:**

- ALFA did not provide any food aid in the year 2008
- Could ALFA “skip” this notification requirement? If not, when should it notify?

Yes, ALFA can skip Table ES:3 notification requirement. Table ES:3 notification is required only when food aid is actually provided in the relevant year.

There are some examples of notifications, however, where Nil statements have been provided, e.g. G/AG/N/URY/5, G/AG/N/BRA/1.

WHO?

- All Members instituting an export prohibition or restriction. Developing country Members are obliged to notify only when they are net-exporter of the product concerned.

WHEN?

- Only when such measures are introduced: this is an *ad hoc* notification requirement.
- When such measures are introduced, Table ER:1 notification should be submitted as far as practicable in advance of the institution of the measure.

WHAT TO NOTIFY

- Details of the measure:
 - product coverage;

HOW TO NOTIFY?

► Case 1

- ALFA introduces an export quota on wheat to apply with effect from 30 April 2010.
- When and how should the information be presented in its Table ER:1 notification?

An *ad hoc* Table ER:1 notification would be required prior to the institution of the measure.

What if ALFA is a developing country Member:

Notification requirement would not apply unless ALFA is a net-exporter of wheat. Please refer to **Article 12.2** of the Agreement on Agriculture.

Notification under Article 12 of the Agreement: Export prohibitions and restrictions

(1) Description of product: Wheat

(2) Tariff item number(s): 10.01

(3) Nature of, and justification for, measure to be introduced:

Pursuant to Article XI, paragraph 2(a) of GATT 1994 and in accordance with Article 12, paragraph 1 of the Agreement on Agriculture, an export quota system is being introduced in order to prevent a critical shortage in the domestic market resulting from a drought-related poor harvest of wheat.

ALFA is prepared to enter into consultation, under Article 12, paragraph 1(b) of the Agreement on Agriculture, with any Member having a substantial interest as an importer.

(4) Duration of application of measure:

The measure will be applied from 30 April 2010 to 15 September 2010 at which time supplies from the new season's harvest should be entering the market.

Table NF:1 Notification under Article 16:2 of the Agreement: Monitoring of the Follow-up to the Decision on Measures Concerning the Possible Negative Effects of the Reform Programme on Least-Developed and net Food-Importing Developing Countries

HOW TO NOTIFY?

► Case 1

- ALFA provided food aid to some least-developed and net food-importing developing countries during the calendar year 2009.
- ALFA also provided technical and financial assistance to this group of countries so as to enable them to improve agricultural infrastructure.
- ALFA also runs a scholarship programme under which 50 students from least-developed countries in Africa are selected annually to study in ALFA's National Agriculture University for a two-year Masters programme. This measure intends to contribute towards strengthening the human infrastructure in the beneficiary countries; an amount of \$120,000 was spent in the year 2009.
- How should the information be presented in its Table NF:1 notification?

Wheat	6,000 t	2,000 t
Skim milk powder	1,500 t	64 t

(2) Indication of the proportion in fully grant form or appropriate concessional terms:

All the wheat listed under (1). above, was provided in fully grant form. 80% of the skim milk powder provided as food aid was in grant form.

(3) Technical and financial assistance under paragraph 3(iii) of the Decision:

The goal of the provision of technical and financial assistance by ALFA is to assist in the improvement of agricultural productivity and the infrastructure in least-developed and net food-importing developing countries.

In the year 2009, in total, financial assistance amounting to \$130 million was provided to beneficiaries of the Decision. Of this total amount, \$76 million went to least-developed country Members and the rest was provided to net food-importing developing country Members (please see Attachment A).

(4) Other relevant information with respect to actions taken within the framework of the Decision:

ALFA provided scholarships to 50 students of least-developed countries to study in ALFA's National Agriculture University for a two-year Masters programme. The objective is to provide them with skills which can be used to increase agricultural productivity in their home countries. It is estimated that these scholarships costed around \$120 000 in the year 2009. The measure intends to contribute towards strengthening human infrastructure in the beneficiary countries.
