The requests include elimination of the preference or, where the wanted rate is still higher than the preferential rate, binding of the margin of preference between those rates.

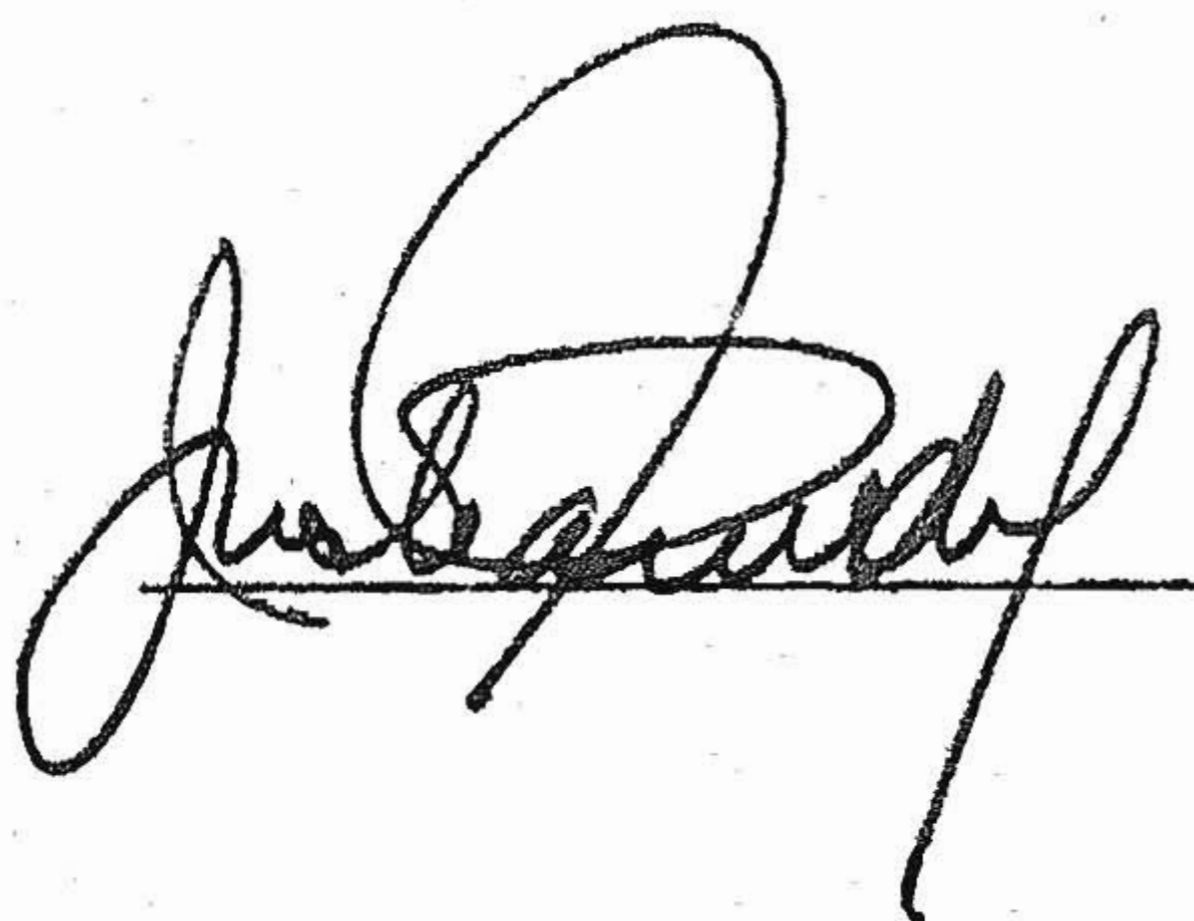

9 August 1949

TO: THE EXECUTIVE SECRETARY

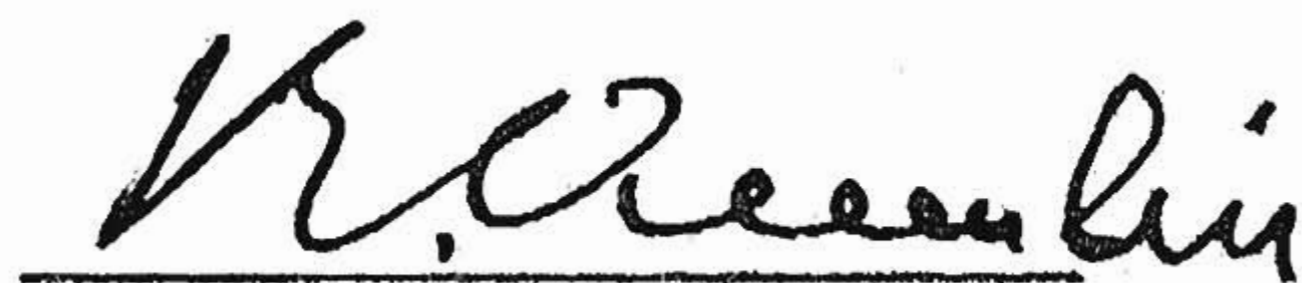

The Delegations of Cuba and Sweden wish to inform the Secretariat of GATT that after several exploratory conversations they have found that for the moment there does not seem to exist any basis for tariff negotiations between Cuba and Sweden.

Both Delegations wish to advise at the same time that, animated as they are by the desire to facilitate and increase international trade, they will continue to explore further any possibilities designed to achieve this end which may exist in the future.
