NOTES CONCERNING THE PROVISIONAL REPLIES OF THE SOUTH
AFRICAN DELEGATION TO REQUESTS MADE ON IT FOR TARIFF
CONCESSIONS.

1. The provisional replies are intended as a basis for negotiation only and are in no way binding on the South African Delegation or on the Government of the Union of South Africa.

2. The replies assume that reciprocal concessions will be made of a nature adequate to justify the concessions offered by the South African Delegation.

3. As and when similar replies are sent to other members of the Preparatory Committee copies will be forwarded to all delegations with which the South African Delegation is negotiating.

4. The remarks column of the schedule indicates the tariff changes which the South African Delegation considers it can offer in the light of present circumstances and on the basis of the above assumptions. Where no remarks are made the South African Delegation regrets that it cannot see its way clear for the present to offer any concession. It nevertheless recognises that the whole position at present is fluid and that events which take place during the Conference may change its views in respect both of the items in which it proposes to make no concessions and of the concessions which it is now tentatively proposing to make.

5. It need hardly be stressed that the contents of the attached document are privileged and that no recipient should in any way disclose them to any outside party whatsoever.

DELEGATION OF THE UNITED STATES OF AMERICA

Dear Mr. Gilpin:

Following the termination of the bilateral phase of tariff negotiations between the United States of America and South Africa , I am sending to you herewith a copy of the list of tariff concessions offered by the United States of America to South Africa . The tariff concessions shown on the attached list are those reached by the negotiating teams representing the two countries, and they are subject to any adjustment that may be required as the result of other negotiations as they are completed. They are also subject to the approval of the Government of the United States.

The description of the commodities shown in the attached list is on the basis of statistical language commodity descriptions, since negotiations were, for convenience, conducted on that basis. The commodity descriptions that will appear ultimately in the United States Schedule annexed to the General Agreement on Tariffs and Trade will, of course, be in the legal language of the United States Tariff Act.

Sincerely yours,

Winthrop G. Brown
Acting Chairman
U.S. Delegation

Mr. A. C. Gilpin,
Acting Executive Secretary,
United Nations Secretariat.
