

Comprehensive data on all aspects of **world trade**

from the
World Trade Organization

International Trade Statistics 2011

NEW DESIGN

International Trade Statistics 2011 offers a comprehensive overview of developments in world trade up to the end of 2010, covering the details of merchandise trade by product and trade in commercial services.

Each chapter is introduced by a key developments section that identifies the most salient trends in the data and illustrates them with numerous charts and maps. There is also a methodological chapter that explains essential concepts and definitions used in compiling the statistics, and an appendix with detailed data on trade by region up to 2010.

International Trade Statistics 2011 continues to serve as an invaluable reference for researchers, policy makers, and anyone interested in international trade.

World Tariff Profiles 2011

NEW DESIGN

World Tariff Profiles — a joint publication of the WTO, the International Trade Centre (ITC) and the UN Conference on Trade and Development (UNCTAD) — provides comprehensive tariff information on all WTO members and a number of other countries where data is available. It is the only compilation of tariff information of its kind available to researchers and negotiators.

The publication summarizes the market access that each country offers to imports as well as the market access conditions faced by its products in its major export markets. The profiles show both the maximum tariff rates that are legally "bound" in the WTO and the rates that countries actually apply.

Trade Profiles 2011

NEW DESIGN

NEW FORMAT

Trade Profiles 2011 provides the latest information on trade flows and the trade policy measures of WTO members, observers and other selected economies. With information for each of these provided in a standardized format, the publication is a quick reference tool for anyone looking for essential trade statistics.

The data provided include basic economic indicators (such as gross domestic product or GDP), trade policy indicators (such as tariffs, import duties, the number of disputes, notifications outstanding and contingency measures in force), merchandise trade flows (broken down by broad product categories and major origins and destinations), services trade flows (with a breakdown by major components) and industrial property indicators. With one page devoted to each economy, Trade Profiles offers a concise overview of global trade.
