International Trade Statistics 2010

The number one source for data on world trade

CHF 50

International Trade Statistics 2010

offers a comprehensive overview of the latest developments in world trade, covering the details of merchandise trade by product and trade in commercial services by category.

This publication provides unparalleled insights into the trends for world trade over the past six decades. Hundreds of statistical tables and highlight sections illustrating some of the key trends make International Trade Statistics an invaluable reference tool for businesses, analysts and anyone wanting to know more about international trade.

Detailed tables provide comprehensive statistics on the world's leading exporters and importers, with information broken down by region and by country. Trade statistics are also provided by product and by commercial services.

World Tariff Profiles 2010

An annual compilation of bound and applied tariffs, prepared by the WTO, ITC and UNCTAD

World Tariff Profiles 2010 provides invaluable information on market access. The listing of the tariffs imposed by each WTO member on its imports is complemented with an analysis of the market access conditions it faces in its major export markets.

The publication provides a comprehensive picture of tariffs. Presented in a handy format, it offers both summary tables and country-by-country breakdowns, with one page devoted to each country. The standardized presentation allows for analyses and comparisons between countries and sectors and between bound and applied duties for WTO members.

This joint publication of the World Trade Organization (WTO), the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Centre (ITC) is aimed at both specialists and non-specialists alike.

Trade Profiles 2010 provides a country-by-country breakdown of trade flows and trade policy measures for WTO members and countries seeking to join the WTO. With information provided in a standardized format for each country, this publication is an invaluable quick reference tool for anyone looking for essential trade statistics.

The data provided for each country includes basic economic indicators (such as GDP), trade policy indicators (such as tariffs and import duties), merchandise trade flows (broken down by broad product categories and major origins and destinations), commercial trade flows (with a breakdown by major components) and industrial property indicators (such as annual number of patents granted).

Presented in a handy format, with one page devoted to each country, Trade Profiles offers a concise overview of global trade.
