APPLICATION BY CEYLON FOR RELEASE UNDER ARTICLE XVIII

Further information on Rubber Footwear

The following revised statement has been submitted by the Ceylon delegation to replace the whole of Section II on Rubber Footwear on pages 4 - 6 of L/35/Add.1.

Rubber footwear was brought under regulation in September 1951 and covers the items mentioned in the annexed paper.

An importer of any kind of rubber footwear is given the option to buy any variety of the local product. For instance an importer of shoes need not necessarily buy local rubber shoes. He can buy slippers or sandals instead. This gives the importer a range of products from which he can make a selection. It is understood that this element of flexibility has been well received by the trade. From the point of view of the local industry, it is hoped that by studying the reactions of importers in their choice of local regulated products it will be possible to determine what particular types of footwear are most popular with the public. This will enable the industry, both during and after the period of release, to adjust its production to the best advantage.

The potential capacity of the local industry is over 1.500.000 pairs, but the maximum quantity of domestic availability suggested for the purpose of calculating the standard ratio is 600.000 pairs. The figure of domestic consumption which can be reached in the next few years, particularly when schools adopt rubber soled footwear as standard equipment, will be well over this latter figure. Active health education and the general raising of living standards as a result of several developmental schemes under the Colombo Plan, for instance, will certainly result in a substantial increase in consumption.

APPLICATION BY CEYLON FOR RELEASE UNDER ARTICLE XVIII

RUBBER FOOTWEAR

(a) Provision of Agreement under which release is sought

Article XVIII, sub-paragraph 7(a)(iii).

(b) Range and type of goods to which measure relates

Rubber footwear including rubber shoes with canvas or cloth uppers, waterproof rubber shoes, all rubber shoes and slippers and sandals.

Tariff item numbers and description:

542 Boots and shoes,
 i) Canvas, rubber soled,
 ii) other
 548 Slippers and sandals.

(c) Precise description of the product of the industry for the protection or development of which the measure is intended

Same as (b)

(d) Domestic production of the items described in (b)

	<u>Pairs</u>
- Shoes with Canvas or Cloth uppers	288,642
- Waterproof rubber shoes	25,000
- All rubber shoes	251,000
- Slippers and Sandals	<u>46,000</u>
	611,142
	=====

Value: Rs. 2,500,000
