APPLICATION OF THE DECISION ON THE VALUATION OF CARRIER MEDIA BEARING SOFTWARE FOR DATA PROCESSING EQUIPMENT

ROMANIA

Addendum

The Decision on the Valuation of Carrier Media Bearing Software for Data Processing Equipment provides that those Parties adopting the practice referred to in paragraph 2 of the Decision shall notify the Committee of the date of its application. GATT/AIR/2068 invited the Parties concerned to communicate this information to the secretariat.

The following information has been received from the Permanent Mission of Romania.

The provisions contained in the Decision on the Valuation of Carrier Media Bearing Software for Data Processing Equipment (VAL/8) are consistent with the practice followed since a date prior to 1 January 1981 when Romania applied the Agreement on Implementation of Article VII of the GATT.

For determining the customs value of imported carrier media bearing data or instructions, in Romania only the value of the carrier medium itself is taken into account.
