PREPARATORY COMMITTEE OF THE INTERNATIONAL CONFERENCE

ON TRADE AND EMPLOYMENT

COMMITTEE STRUCTURE

In the light of the discussion at the Third Executive Session of the Preparatory Committee on 16 October, the Committee structure as proposed by the Secretariat in paper E/PC/T/W.11 was amended and established as follows:

- Committee I - Employment, Economic Activity and Industrial Development.
- Committee II - General Commercial Policy.
- Committee III - Restrictive Business Practices.
- Committee IV - Intergovernmental Commodity Arrangements.
- Committee V - Administration and Organization.

It should be noted that the Preparatory Committee agreed that the question of "international agreements relating to industrial development" should be considered both by Committees I and II, these Committees deciding for themselves whether to discuss the points involved jointly or in sub-committees.

Note 1. The Preparatory Committee accepted the principle that all members of the Committee should be represented on each of these five Committees.

Note 2. It is proposed that Committees I and II would not meet simultaneously; a similar procedure will be adopted so far as possible in respect of Committee II and Committee IV.
