SUBSIDIES

Notifications of Changes in Subsidy Measures

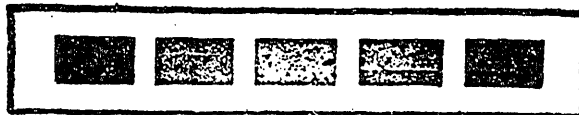

ITALY

The following communication has been received from the Italian Permanent Representative:

"In March and April 1963, the Italian Government sent to the GATT secretariat full replies to the questionnaire on subsidies (document L/1948/Add.15) ...

"There have been no changes since that notification in the subsidy measures applied in Italy, pursuant to Article XVI:1 of the General Agreement, in regard to products other than those products which are covered by the common agricultural policy.

"The products which come under the common agricultural policy are, as already indicated, the object of a set of measures whose application is governed by the obligations of the Community. The Commission of the EEC will transmit communications concerning these products."
