FINNISH IMPORT RESTRICTIONS

Liberalization Effective 1 January 1966

The Finnish Government has advised that further relaxation of import restrictions took place on 1 January 1966, as had been forecast at the balance-of-payments consultations with Finland in November 1965.

These measures consist in the expansion of certain global quotas and in liberalizing some items completely for imports coming from and originating in countries belonging to Finland's multilateral relaxation area.

The products which have been freed from quantitative import restriction as from 1 January 1966 are listed below.
