¹Tobacco delivered to the monopoly in packaged form.

²Tobacco delivered to the monopoly in leaves.

PRODUCTION

Sector No. 8: Wines

(a) Self-sufficiency ratios

Data are available for the Community as a whole, and have already been furnished in document COM.LG/W/27/Add.10.

(b) Prices received by producers

Germany

Producer Prices for Grape Must

	(U.M./100 kg.)
1963/64	21.75
1964/65	16.75
1965/66	26.25
1966/67	33.50
1967/68	25.50

Benelux

There is no wine production in Belgium or the Netherlands.

In Luxembourg there was no major change in producer prices from 1963 to 1967.

These were as follows:

- for ordinary wines, from 26 to 34 U.M. per hectolitre
- for quality wines, from 40 to 60 U.M. per hectolitre.

France

Producer prices per degree and per hectolitre:

1965/66: 1.03 U.M.; 1966/67: 1.14 U.M.; 1967/68: 1.22 U.M.

Italy

Average unit earnings for sales at wholesale stage:

(U.L./hl)					
1963	1964	1965	1966	1967	1968
10.63	11.78	11.50	13.46	12.28	12.53
